

J.A.H. Risk Management O.H.S. MANAGEMENT SYSTEM

Occupational Health & Safety Management System Package

The OH&S Management System (OHSMS) consists of a series of Policies and Procedures which shall be developed and tailored to your business and industry type.

JAH Risk Management does not do generic OHS Management Systems. Like any management system it needs to be tailored to suit your operation.

An OHSMS based on AS4801:2001 Occupational health and safety management system-Specification with guidance for use, ensures continual improvement in Health and Safety management which in turn will provide:

- Safer work environments by being proactive in reducing the likelihood of hazards and risks occurring.
- OHS Management System will improve the quality of OHS information available to decision makers at all levels
- Reduce the frequency and severity of risks to people's health and safety
- Improve prevention of occupational injury, illness and disease
- Reduce the impact of occupational injury, illness and disease
- Train, support and motivate personnel to identify and manage hazards effectively
- Improve, consolidate and embed the capability to identify, eliminate and manage hazards in the design and planning stages
- Enable personnel to manage the OHS performance of third parties-Contractors
- Demonstrate Due Diligence that the business is meeting legal compliance.
- An effective OHSMS enhances the organisations reputation and employees, clients appreciate the security of good OHS management system.

The OHS system meets all relevant OHS legislation for each state and territory and is based on AS/NZS4801. It is supplied in an indexed folder and on CD so you can integrate it into your operations.

Policies and procedures are developed in an easy to understand and if appropriate flow charts, photos or pictures are incorporated to ensure end user understanding.

The information provides polices, checklists, templates, forms, training templates and safe work method statements and/or Safe operating procedures.

Refer the example of an OHSMS index page of documents which shall suit your business needs.
